# The Confirmation Procedure of an upgrade period registered into HASP Key
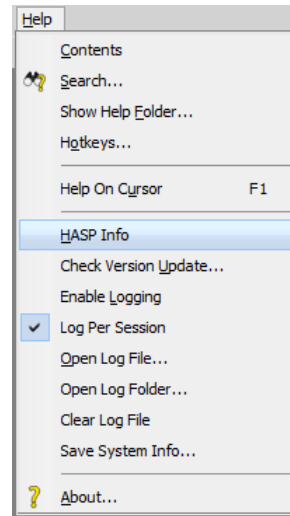

1. Start HASP Info

You can confirm the upgrade period registered into the HASP key on the screen of Utility software called HASP Info. In order to invoke "HASP Info", there are following two ways.

(a) Start from the Windows start	(b) Start from Help menu of NIS-Elements
"HASP Info" of NIS-Elements is selected and started from the Windows start menu.	"HASP Info" is selected and started from Help menu of NIS-Elements after started NIS-Elements.

2. Confirmation of the upgrade period

The upgrade period displayed on a HASP Info screen is checked in the following procedures.

(1) Activation Date
(2) Upgrade Period

The following two information is shown at the bottom of "HASP Info".
(1) Activation Date
(2) Upgrade Period

If the release date of each version of NIS-Elements[1] is before the date which is displayed in the upgrade period, you can upgrade to the version.

If the release date is after the date which is displayed in the upgrade period, to upgrade the version, you need to purchase the SUA option for a required period, and need to extend an upgrade period.

[1]: You can check the release date of each version of NIS-Elements at the download corner of NIS-Elements.
Please refer to "3.Confirmation for release date of NIS-Elements" for more detailed information.

3. Confirmation for release date of NIS-Elements
